

Jorei' Path To Heaven on Earth

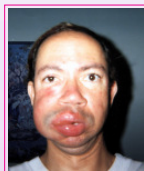

In 1968, as a sophomore in High School, I was prescribed antibiotics for teenage acne and began taking antibiotics on a daily basis. I continued to take antibiotics without fail every day for the next 18 years until I stopped in October of 1986. At the same time I stopped the antibiotic treatment, I went to the dentist who in two weeks filled 20 of my teeth with mercury amalgam fillings. Also, at this time, I changed overnight to a strict vegetarian no-fat diet suggested by a book. Immediately, during the dental treatment, I came down with shingles on the right side of my body with a rash and extreme nerve pain. After this, I became sensitive to many foods, especially processed foods, leftovers, fruits, sweets, and fermented foods and everything in my environment especially gas, carpets, paints and other chemicals (Allergic to the 20th century!). I became extremely fatigued, icy cold, feverish, and extremely clouded and slow mentally on a continual basis (chronic fatigue syndrome). I consulted over 50 doctors both holistic and medical over the next 10 years and took huge dosages of all vitamins, minerals, herbs and vegetable juices available (spending from \$50,000 to \$100,000 on doctor's treatments, vitamins and herbs, etc.). However, I just became weaker and finally in July, 1989 my body started breaking out in huge swellings (hives) of the lips, face, body, arms, legs, feet, etc. as shown in my photo. I was forced to stop the vitamins, minerals and herbs to control the hives. I was prescribed Hisminal, prednisone and other drugs to stop the swellings but they just increased the swellings.

In January, 1990, I was forced to move to a warm climate in California as heating systems and winter climate was too stressful on me in my weakened state. I continued to see more doctors and to take every new product offered in the health food store spending up to \$300.00 a weekend. The doctors told me that different things were the cause of my ailments. They diagnosed liver, digestive and immune system and autoimmune malfunction, Alkalosis, systemic pathogenic parasites, candida, and bacteria and blood poisoning septicemia and multiple food and environmental allergies (universal reactor syndrome). However whatever they told me to do or have me to take, including vitamins, minerals and herbs, my body would just become more toxic and break out in huge hives. Also, I continued to lose my abilities to function at work. The hive breakout continued to grow to a weekly occurrence causing absenteeism from work up to 2 days a week. Since I work for the Federal Government I was protected, otherwise I would have been fired.

In July, 1993, after much praying about my condition and after trying every available treatment with all my kitchen cabinets full of vitamins, minerals, herbs and other health products, a very good friend aware of my condition suggested I try Jorei. I started Jorei right away on a daily basis and gave up taking all my medication and health food store remedies. After each treatment, I would get a fever and feel very nauseous and toxic; however, the next day, I would feel much better than I've felt in many years. I saw that I had to cleanse myself with Jorei to get better. I continued to do Jorei every day for the next four years sometimes receiving double, triple or quadruple treatments while also serving. Although I have had many cleansing reactions (Jokas) including diarrhea, throwing up, swellings, colds, flus, various pains

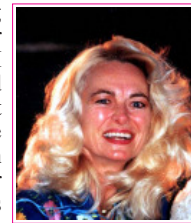

Before

and a painful nerve pain in my right side and arm (similar to the shingles in 1986) I now have new strength and a clear mind able to function extremely well at work. In fact, I have never missed a day of work for sickness in the past year and have actually won awards this past year for my renewed excellent performance at work due to the cleansing of Jorei. Also, the severity, size, and number of occurrences of the huge swellings have been decreasing with Jorei with the last major episode occurring more than a month ago (at one time they were happening on a weekly almost daily basis). My body now only desires organic cotton clothes, fresh natural foods and pure water for bathing and drinking. In my home, I have hardwood floors and no chemicals. With Jorei, I have also had the strength to replace all my mercury fillings with non-toxic fillings. In addition, I eat what my body craves (only fresh, natural, and unprocessed foods) with no snacking and this seems to give my body the nutrients it needs without taking the vitamins and minerals which increases my toxic level. My body is much stronger and does not allow any toxic substance to enter my system without immediately releasing it in a Joka. So, Jorei has been a great blessing in my life. I feel like I did before the poisoning with antibiotics and mercury fillings. As a fringe benefit, my spirit has also been cleansed and I feel very loving as in my recent picture after Jorei and blissful even in the Jokas. Thank you, Meishu-sama for Heaven on earth.

Once crippled, but ---

1995 was the year I was crippled in excruciating pain in a wheelchair. After simply bending over to dry my leg after my shower one morning, I suddenly couldn't get up. I spent the weekend in a chair while waiting to see an acupuncturist on Monday morning. After repeated acupuncture treatments, I tried chiropractics, during which time I was searching for six months for other remedies in alternative medicine. I finally was informed that I had a defect, since birth, in my lower back that had weakened with age and stress on my 6-foot frame.

After 2 cancellations in the hospital for Triple Spinal Fusion surgery, I fled to a hospital in Florida where they tried to teach me to walk for 6 weeks, yet to no avail. Depressed and feeling defeated, I returned home in a wheelchair and simply (yet profoundly) prayed to God. Subsequently, I was led to a chiropractor who practices non-invasive techniques. He told me that I 'may never walk again.' We worked together almost daily for two years, placing my bones in alignment. Gradually I could walk again yet very fearfully; the slightest wrong move and the severe pain sent me back for treatment. As a result of my fear, pain and frustration, I again turned to God in deep prayer; I asked, "What are you trying to tell me?" The message I understood was that *God had given me a talent as an artist and I was not fulfilling it.* I had simply not trusted myself to earn a living through my painting. Yet at that moment, I promised God that if my spine were healed, I would work full time being an artist.

The Miracle happened. My auto mechanic told me about LA Jorei Center that could help heal colds and flu. In June 1997 a very depressed friend came over and I suggested we go together to the center. At this time, my already impaired vision was worsening and was also beginning to frighten me. During my first Jorei treatment my eyesight improved! The pain in my spine, hip and leg vanished. I never went back to the chiropractor yet my back completely healed. I now dance, swim and run...better than I had before these injuries! After only one Jorei treatment, even the relentless spasms in my calves were gone.

Additionally, I immediately stopped seeing my therapist, and after 32 years of releasing my emotions through Bulimia, I stopped this pattern and can only thank Jorei for this triumph. I had previously reacted to life and people through fear and even tried suicide three times over the years. Since commencing Jorei, any suicidal thoughts have entirely disappeared. My body temperature, which used to feel consistently hot, is now normal and my formerly dry skin is now naturally soft. Another miracle is that I am no longer addicted to diet pills for energy, nor do I use laxatives that I had been using regularly since I was 16 years old.

Happiness and confidence surfaced naturally for the first time in my life. Now, I am open, full of love, good humored and laugh regularly. I have patience and I speak with ease and clarity, no longer struggling as I used to. My memory is improving and I no longer feel self-conscious, awkward or out of place. I am now at home in my body, in my mind and in the world. Life has become a pleasure for me and my paintings are privately and corporately commissioned and collected internationally.

Thank you Meishu-Sama for Jorei and your teachings. My heart is full of gratefulness and Love. In March of 1998, I became a happy member in order to give Jorei to others. Thank you Yoshio, Harumi and Meyo for everything!

Endless Problems Solved

For many years I was on an endless search for an answer to my many health problems. As a child I suffered from strep throat, which I had every winter, and started on the endless road of antibiotics. My tonsils were finally removed as an adult, after being on antibiotics on and off for two years. I also had chronic bronchitis which lasted all of my life and at one point progressed into pneumonia and pleurisy, having to once again take other medications along with antibiotics. A bike accident, where I lost my two front teeth and had nerve damage, at the age of 8 was the onset of an overwhelming amount of dental work over the years, using anesthesia and pain pills.

By the time I reached the age of 17 I was diagnosed with my first ulcer which introduced more drugs into my system and lasted for many years. Along with regular medication was the use of alcohol which only compounded my existing health problems. This was only the beginning of a downward spiral.

In my twenties my bladder was damaged during surgery and after two days of leaving the hospital the bladder was severely over distended and filled with poisonous toxins. I looked nine months pregnant and was near death before being taken to the hospital. I was injected with diuretics daily and lost 15 pounds in one week. This regimen left me weak and yet I was on medication for many days after.

I had a few car accidents along the way causing years of back problems. I was always in pain daily because of this and other trauma to my back. I eventually had a disc fusion in my neck as a result of one of these accidents. My stress level was very high, so in addition to the almost regular medications I took other drugs to deal with the increasing pain and depression.

Over the years I have been diagnosed with arthritis, tendonitis, tonsillitis, chronic bronchitis, strep throat, migraines, herniated discs, ulcers, pneumonia, pleurisy, pinched nerves, carpal tunnel, tumors, cysts, fibroids, endometriosis, fibromyalgia, had two minor nervous breakdowns, and was twice told that there was a possibility I had cancer. Thankfully after removal of a tumor it was not cancerous.

This covers for the most part the medical part of my story. There is an emotional element which made an already desperate situation much worse to deal with. This includes the life situations that happen such as divorce, being a single parent, financial instability, loss of jobs/homes/relationships and the most damaging being the loss of many family members over the past few years.

After eleven surgeries and the many losses in my life, I felt hopeless and depressed with no solution in sight. After my husband's death I began to search for a more spiritual solution to all of these problems. It had definitely helped my emotional state, yet physically I was still struggling and could not overcome the ongoing pain and illness.

Not too long ago I was at the point where I could hardly get out of bed and was holding on to things just to walk, had constant swelling in my feet and ankles and was only able to complete one task at a time followed by icing my back and resting for a minimum of two days. I was becoming very fearful that it wouldn't be too long before I would need help. The thought of having my daughter take care of me was so depressing. I didn't want to burden her and felt more hopeless than ever.

My friend Rose introduced me to Jo-Rei by sharing her story with me. I was so desperate for an answer. I had tried so many other things without any lasting success.

Although I had some reservation I made the appointment and am still amazed that after such a short time I have seen so much improvement.

The symptoms and pain I was experiencing daily are subsiding and I am already able to function to a much greater degree than I have been in years.

As a result of Jorei my spirit is much brighter and I am no longer in fear of not being able to care for myself anymore. I am filled with so much gratitude and hope knowing I can once again, after all these years, live a life free from constant illness and pain.

I am on the path to wellness and a deeper sense of inner peace which is far more than I could ever have hoped for. It is comforting to know that I do not walk this path alone.

Last month I became initiated into Jorei and have now been able to break the chain of illness in my family. I feel very blessed and honored to be part of this wonderful organization.

There are no words to express my deep regard and respect for Yoshi and Harumi for sharing this gift with me.
